HealthCare Information Management, Inc. (HCIM) and DataWing Software Begin SymKey® for EZ-CAP® DataWing Auto-Post™ Module Co-Development Project

WALNUT CREEK, Calif. – Jan. 25, 2010 – HealthCare Information Management, Inc. (HCIM) and DataWing Software, an HCIM business affiliate, began work today on a collaborative effort to create a SymKey® for EZ-CAP® DataWing Auto-Post™ Module that will automatically post data from DataWing Software’s Eligibility Manager® and DataTug™ applications into EZ-CAP’s Eligibility module.

“Our products are all about helping our clients increase eligibility accuracy and reduce manual processes. We’re delighted that integrating our products with SymKey will allow our clients to automate even more processes for updating eligibility data in EZ-CAP. Our work with HCIM has been very team-oriented as a true partnership should be, and we look forward to the final implementation of this product,” said Jerry Porter, President of DataWing Software.

“I am pleased that our long and enduring business relationship with DataWing Software has resulted in this SymKey DataWing Auto-Post module co-development project that will increase the productivity of DataWing’s Eligibility Manager and DataTug applications. We expect to continue working collaboratively with DataWing to provide even more value and functionality to our joint client bases,” said Michael Wilson, President & CEO of HCIM.

About HCIM

Incorporated in July 2000, HCIM delivers technology solutions and consulting services to the managed care/payer industry. HCIM’s Certified Service Partner consultants are trained and certified in successfully implementing the latest technologies and versions of the industry’s leading managed care core transaction systems. HCIM’s trained professional consultants offer payer software application implementation services such as database development, database analysis, custom report development, custom software development, testing, and
