HealthCare Information Management, Inc. (HCIM) can offer you a career as a **Client Services Consultant** in the healthcare/managed care industry.

HCIM is well versed in the complexities and characteristics of today's health care delivery systems, with an intuitive eye on those to come. With boundless skills and industry knowledge, we build solutions that address today's pressing issues while preparing clients to meet tomorrow's challenges.

HCIM's consulting group provides project management, planning and development, implementation, documentation, and staff training. The consulting group also offers custom reports and database development and analysis. We are also experts in helping clients implement pay-for-performance systems.

HCIM strives to create an environment built on trust, which fosters creative thinking, empowered decision-making and innovative solutions. Our products and services are recognized to provide the best value based on demonstrated experience, knowledge and expertise in the healthcare marketplace.

**Position Title:** We are seeking Associate Client Services Consultants as well as Professional Client Services Consultants. The ideal candidate will be a self-starter with a high sense of professionalism, and will require minimal supervision.

**Education Requirements:** Bachelors degree or relevant and practical managed care/claims payer experience.

**Skill Level Requirements:** QNXT and Facets configuration and implementation experience with Benefits, Contracts, Providers, Enrollment, Sponsor, Accounts Receivable, and/or Technical Support.

**Relevant Work Experience:** 5 or more years in the managed care/claims payer industry

HCIM offers our colleagues a generous salary AND an hourly bonus based upon every client billed hour, as well as participation in the following: company health benefits package, incentive stock program (for those who qualify), PTO to include paid holiday and vacation days, company provided laptop and cell phone, and internet reimbursement.
